

# TORQCLICK

# TORQUE SCREW DRIVERS

TORQCLICK Torque Screw Driver is an ideal tool for Precision tightening of Small threaded Components in Electronic, Electrical, Aircraft and Instrumentation Industry, where very accurate low torques are required.

- 1/4" Square Drive Spindle to suit all Standard Sockets, Screw Driver Bits and Converters.
- Bi-Directional operation with consistent repeat accuracy.
- Concealed adjustment mechanism to prevent accidental re-setting during use.
- Smooth "Slipping" action completely eliminates over tightening.

| Model No. | Torque Range |           |
|-----------|--------------|-----------|
|           | Kg. Cm.      | Nm.       |
| PTS - 15  | 1 - 15       | 0.1 - 1.5 |
| PTS - 50  | 10 - 50      | 1.0 - 5.0 |
